

# Coastal Zone Management Act (CZMA)

- Creates a federal and state partnership for management of coastal resources
  - Allows for state review of federal projects or federally permitted projects
  - Applicable if a project could have spillover effects into Coastal Zone
  - Assess consistency with certified Coastal Management Plan
- CA's CMP = Coastal Act chapter 3 policies

# Relevant Coastal Act Policies

## Coastal Resource Protection

- Marine Resources and Water Quality
- Commercial and Recreational Fishing
- Archeological Resources
- Scenic and Visual Resources
- Public Access and Recreation
- Coastal Hazards

## Oil and Gas

- Consolidation of new or expanded facilities
- Pipeline transport
- Coastal-dependent industrial override

# Offshore Oil and Gas: Review History

## State Waters (4 platforms)

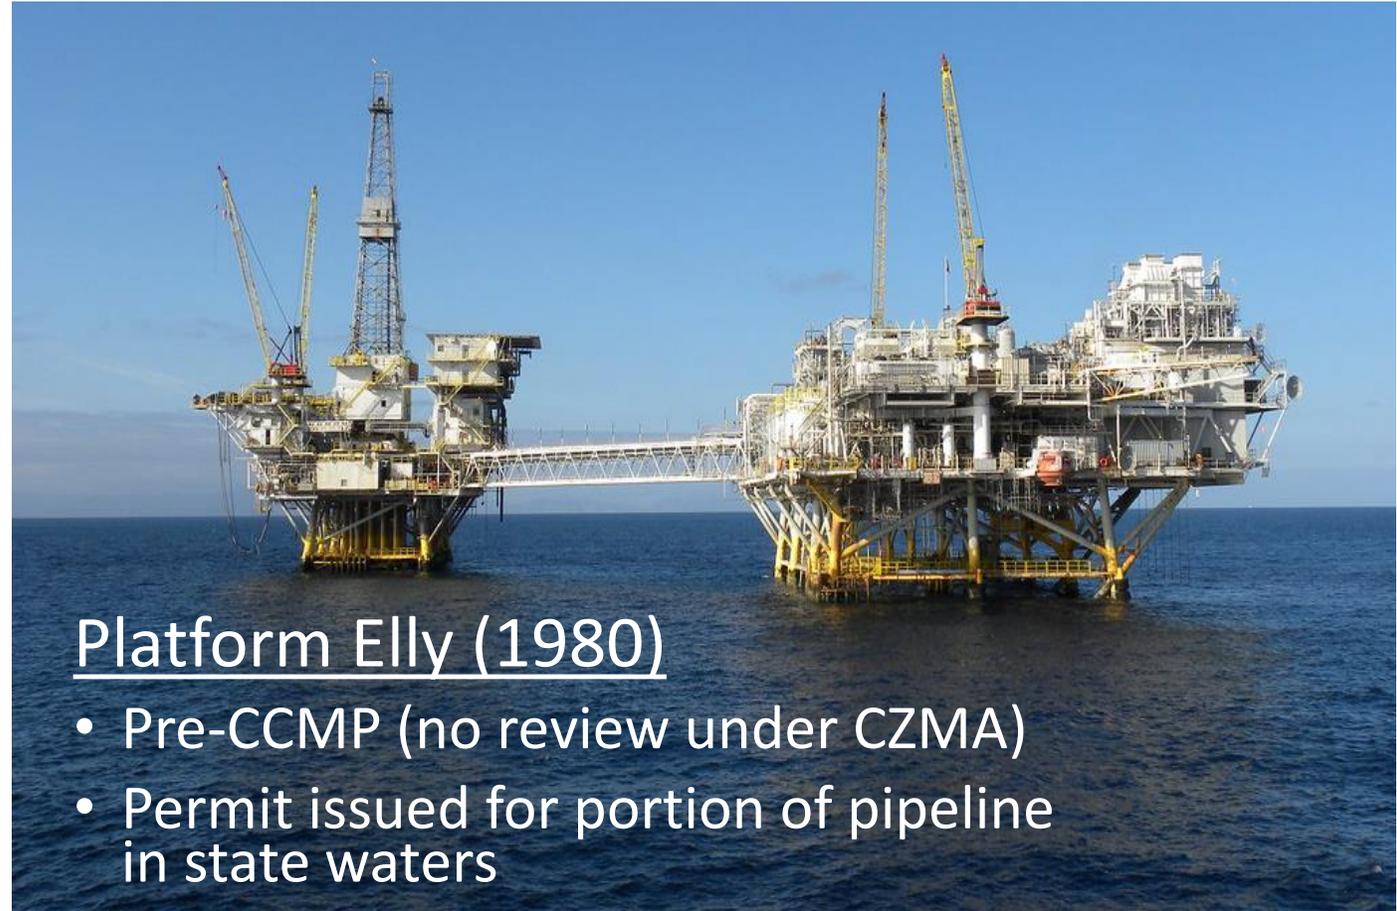

- 2 pre-Coastal Act
- 2 CDPs

## Federal Waters (23 platforms)

- 12 pre-CCMP or were not reviewed
- 11 Consistency Certifications

## Pipelines (17 total)

- 4 have permits or CCs for initial installation

### Platform Elly (1980)

- Pre-CCMP (no review under CZMA)
- Permit issued for portion of pipeline in state waters
